

Creating a Healing Vortex of Light for Earth's Survival

On June 21st 2007, we celebrated yet another milestone in receiving powerful healing energies from Brother Sun and Sister Moon. The Summer Solstice is nature's way of inviting us to rest in her rays of divine healing love and reflect on where we are at in our spiritual journey and listen to our hearts on how we can engage Mother Earth, the Nature Spirits and Angelic realms to support them reach out and heal our fragile Earth.

Yes, we are all too painfully aware as Light Workers that mankind stands accused of wasting valuable resources of her energy thus directly damaging the eco balance through wilful neglect. There is a time for immediate action and that time is NOW and the people who can make a difference are Light Workers. You might well ask why Light Workers? It makes practical sense that Mother Earth and the Angelic Realms would look to you and I initially to share our gifts as co creators of Source. Light Workers/Therapists are their natural choice! Why? Because we already know on a deeper level that we accepted the invitation from Sananda Jesus, The Divine Feminine, Mother Mary, Gaia and the realms of love to be the 'Light Bearers' before we were born. So, as their natural choice of mediator for the healing of planet Earth, Light Workers are the vehicles for Divine, spiritual healing energy to become instruments of change benefiting mankind.

What skills do we need to work in partnership with Mother Earth, Gaia Source?

We already have the necessary skills as therapists. We are as ready now as we can ever be! I know that many of us have already prepared ourselves through ongoing training, detoxifying our bodies and releasing negativism from minds-our hearts and our relationships. Many of us have been crucified emotionally, mentally and physically to prepare us for this unique challenge to help Mother Earth to now implement her 'Action Plan' for the survival of planet Earth given to mankind. I know that many of you have been faced with crisis that have challenged your personal relationships with partners, family members and even your Church, religious beliefs. In our search for truth, the Realms of Love and Light have walked beside us to remind us that we are not alone and they congratulate each one of us who have taken responsibility for our life. Often many of you have walked alone as a light worker but now we know that we are surrounded by an almighty army of angelic beings whose mandate is to protect and safeguard us as we battle it out

How do we change the Negativism that is now engulfing the spiritual pulse of society and the world's heart?

We are daily reminded as Light Workers that the battle is not ours alone! The strategy for winning this war against greed and negativism belongs to Mother Earth and the Holy Father Mother God. The Angelic Realms are not just glorified golden images to admire but an army of spiritual warriors and heavenly messengers to fight with us and for our survival. All we have to do as Light Workers in service to the Divine is to remain still and silent in the presence of the I AM PRESENCE.' Instead of getting embroiled in the unfolding dramas of the world stage, we are invited to remember the words KISS. Keep it simple server! When we get embroiled in another's baggage and

step out from our protection zone, we leave ourselves wide open to negative attack. The outcome will leave us powerless and useless in the face of adversity.

What practical steps can we now take?

I can only share with you what I have sensed in my heart during my quiet periods of silent reflection before God, Sananda Jesus, Mother Mary, our Earthly Mother and the realms and it is to use the gifts that I already have at my disposal. The gifts that the Realms gave to me in 1998 to help me aid my recovery from mental illness and self heal was the beautiful Divine Blueprint, or better known as the Angel (Feng Shui) Healing Bagua. Please read the enclosed attachment about what it is and how we can use it to self heal before healing the planet Earth.

The Angel Bagua is a simple ancient sacred tool that has been used by the Therapeutia Essenes for over 8000 years to incorporate Holism, Spiritual Healing Energy, the energies and frequencies from colour, plants, herbs and the landscape to create a vortex of Divine Love for Mother Earth to receive all negative energies from Mankind-the Earth-The Universe and beyond. The therapy of Therapeutic Channelling also can be used to release negativism from our clients to Mother Earth and have it recycled and returned as positive energy back into our clients. Therapists who are fully grounded and protected can be receivers for transforming negative energies back to Source.

You may be directed to create and design your own sacred peace oasis combining your holistic training with the energies of Mother Earth and the Four Spheres of Angelic Beings of Light in your garden, your home/apartment or Therapy Rooms that will enhance the flow of healing energies from using the Angel Healing Bagua as a sacred tool. **The Realms are the true Garden Designers and you and I are the labourers!**

The Way Forward for 21st century Light Workers

In the words of that famous song, '**The only way is up**' and yes, if we are true to ourselves and value our integrity as the New Illumenaries of light representing the Eternal Flame in service to Source, then we cannot ignore the cry from Mother Earth any longer.

We are best placed by reason of our dedication, commitment and knowledge in all aspects of Holism and Spiritual Healing to be the challenge that mankind needs right now. We can do it if we unite as one body - a united front is the best way to tackle adversity, apathy and indifference. If we come from a place of unconditional love, then we have no reason to fear mankind or the large conglomerates who are abusing planet Earth. Besides, when we were given Earth to live on it was for all of us to share it with everyone including the animal kingdom. We have a duty to care and nurture that free gift from God to each one of us.

As Light Workers, we are empowered as joint custodians to leave our **energetic footprints** behind to show the Council of Light that we cared and that we did rise up to accept the challenge from Mother Earth to help self heal and reach out and save the planet from total ruination.

I believe that as light workers, in service to Source and Mother Earth, we have by reason of our Divine birthright, all that we need to ask from our Angel Bankers that all our needs (not wants) be met. The realms are more than happy to give us our needs /not our want list!
